<https://github.com/helloWorld>

I am a Full Stack Web Developer recently completing Nucamp's Full Stack Web and Mobile Development Bootcamp. I have 1 year of professional experience developing SEO friendly websites using HTML, CSS, and Wordpress. I'm passionate about React.js, Front-end, and Web3 technologies, and seek a web developer position to apply my skills and continue learning in a team environment.

PROJECTS (more available on Github)

Click Promote (MERN Stack) - *An Online Marketplace For Influencers & Advertisers*

A two-sided marketplace that connects content creators with businesses who need promotion.

Simple Weather (HTML, CSS, JS) - *A Simple Weather Forecast Chrome Extension*

Chrome extension that pulls current and future weather conditions from the WeatherAPI.com REST API.

YouTube Viral Finder (Python) - *A Python Script To Find Viral YouTube Videos*

Command line script to search the YouTube Data API for viral videos based on a keyword search.

SKILLS

Advanced: React, HTML, CSS, Javascript, Python, Bootstrap, REST APIs

Familiar: SQL, React Native, Node, Express, MondoDB, Git, Docker, Django, AWS Cloud

No-code: Wordpress, Photoshop, Figma, InDesign
